Dear Dr Young

**FOLLOW-UP TO THE INSPECTION OF WINDSOR PARK SCHOOL
FALKIRK COUNCIL**

The report on Windsor Park School was published in May 1999. HM Inspectors visited the school in December 2000 to evaluate progress made in responding to the main points for action in the report.

The new headteacher and the school, supported by the education authority, have made very good progress towards addressing the main points for action in the report. As a consequence of the good progress which has been made, HM Inspectors will not make any further visits to the school in connection with the 1999 report.

I attach an evaluation and brief account of the response made by the school and the education authority to the main points for action in the report.

I am sending a copy of this letter to parents of children currently in the school and the other recipients of the inspection report.

Yours sincerely

Dr Gill Robinson
HM Chief Inspector of Schools
Eastern Division
